

LESTER SUMMERFIELD – FAMILY LAW

Psychological and mediation services for children and adults in the divorce process:

My divorce and post divorce services are designed to serve those families that are in the process of reassessing their divorce and post divorce relationship. I am often appointed by judges and family law attorneys in Ventura and Los Angeles County to perform the following services:

Services Include: **

- Supportive therapy for adults in the divorce process
- Therapist for children and adolescent who are undergoing the trauma of divorcing or divorced parents. (Can be court or family lawyer appointed).
- Mediation of issues of conflict in the course of divorce.
- Co-parenting therapy and coordination of a parenting plan.
- Parental fitness evaluations.
- I will serve as an expert witness, testifying in court as required.
- Prescription medication

**** I do not perform the following services:**

- 730 child custody evaluator.
- Special master.
- Reunification therapist. (Will do counseling of child and parent).

There are many circumstances where it is propitious for me to have permission from both parental parties in order to treat a minor; this is not always the case as many times there are extenuating circumstances.
